

Infitech Merchant Services Program.

Infitech, a payment processor, has partnered with the Yellow Springs Chamber of Commerce to lower your business expenses by leveraging the buying power of the entire chamber membership.

PROGRAM FEATURES

► **Proven Savings:** Join other members in your chamber who have saved thousands on their processing by switching to Infitech.

Exclusive Group Rates.

Infitech offers exclusive, pre-negotiated credit card processing rates by leveraging the buying power of the entire membership. Program rates are ensured to remain competitive and are among the lowest in the industry.

Transparent Pricing.

Processing costs are simplified using a "Cost-Plus" pricing structure. The true costs of processing electronic payments are exposed, eliminating hidden fees and preventing processor rate increases.

No Long-term Contracts.

Participation in the program does not require binding agreements with excessive cancellation fees. Buy-down options are also available for customers who have an existing contract with another provider.

Bank Neutrality.

Infitech is solely a provider for electronic payment services and will not affect your banking relationships. Funds are deposited in an existing depository account.

Local Service & Support.

Infitech provides a dedicated local representative to provide enrollment assistance and to field ongoing customer service and support.

Ancillary Services.

Infitech offers discounted pricing on equipment and other peripheral services such as: traditional & virtual terminals, electronic check processing (EFT), check authorization & recovery, mobile processing and more.
